

Muhammad Ragib Hasin

ragib.hasin@gmail.com | github.com/RagibHasin | ragibhasin.github.io | Rajshahi, Bangladesh

Rust developer with 8 years of self-directed practice and active community contributions (Xilem, Tackler). B.Sc. in EEE. Seeking to apply systems/GUI expertise in a professional embedded, WASM, or tooling role.

Technical Skills

- **Programming Languages:** Rust (Advanced), C++, TypeScript/JavaScript, Python, C#
- **Frameworks:** Xilem, Axum, React, .NET, Node.js
- **Tooling:** Git, GitHub Actions, Docker, Postman

Open Source Contributions & Personal Projects

Xilem

Aug 2024 — May 2026

Rust | GUI

(github.com/linebender/xilem)

- Resolved rendering, event handling and type inference bugs across multiple widgets. [PRs [#554](#), [#715](#), [#1398](#), [#1670](#)]
- Resolved issues with text input with system-level input hook and window transparency bugs on Windows. [PRs [#489](#), [#1393](#)]
- Assisted in adding a layer system. [PR [#1405](#)]
- Enabled translucent window on Windows. [PRs [#1380](#), [#1383](#)]
- Improved reactive layer enabling access to widget level features. [PRs [#1471](#), [#1505](#), [#1672](#), [#1673](#)]
- Improved aesthetics of scroll-bar and slider widgets. [PRs [#1770](#), [#1771](#), [#1773](#)]

Understory

Mar 2026

Rust | GUI

(github.com/forest-rs/understory)

- Added support for sparse virtual list loading. [PR [#138](#)]
- Fixed unnecessary lifetime capture enabling new use-cases. [PR [#125](#)]

Scrolled Quran

Feb 2026

Rust | Xilem | TypeScript

(github.com/RagibHasin/scrolled-quran)

- Designed a continuously scrolling reader UI.
- Orchestrated asset embedding for single file application.
- Adapted existing vertical scroll widget to horizontal scrolling.
- Ported scroll widget to more robust foundation.

Uo Keyboard

Jan 2024 — Jun 2026

Rust | COM | IME | Windows

(github.com/RagibHasin/uo-keyboard)

- Ported Windows Text Service Framework example to Rust.
- Adapted an existing English → Bangla transliteration solution to Windows TSF.

DirectWrite Font Fallback Override

Dec 2025

C++ | COM | Reverse Engineering

(windhawk.net/mods/dwrite-font-fallback-override)

- Reverse engineered font fallback logic on Windows.
- Designed and implemented an extensible solution to override fallback font of DirectWrite.

Tackler

Jan 2025

Rust | Finance

(github.com/tackler-ng/tackler)

- Designed and implemented market price analysis. [PRs [#39](#), [#40](#)]

Education

Rajshahi University of Engineering and Technology

Bachelor of Science in Electrical and Electronic Engineering

Rajshahi, Bangladesh

Feb 2019 — Jul 2024
